## USED BY OVER 200 FIRE DEPARTMENTS

The WASP Wildfire Protection Kit is a homeowner-ready system that delivers water to your roof and home perimeter, using adjustable mounts, rotating sprinklers, and fire-department-grade lay-flat hoses for simple, reliable deployment.

## WASP WILDFIRE PROTECTION KIT

380-0460

**\$229<sup>95</sup>**

MAY 1 - SEPT 15, 2026

### 350gal Home Hydrant

380-0550

**\$5,301<sup>07</sup>**

A Home Hydrant system provides on-site water access for advanced fire preparedness where availability is limited.

### Hose Splitter

153-6700

**\$19<sup>83</sup>**

A hose splitter helps customize your WASP setup by expanding coverage from one water source.

### Residential Fire Extinguishers

380-3322

**\$49<sup>59</sup>**

Fire extinguishers offer hands-on protection for everyday fire risks, supporting quick response and peace of mind.

### Wildland Fire Hose

706-1332

**\$30<sup>95</sup>**

A hose extender adds reach to your WASP system, ideal for larger or hard-to-reach areas.

### Kidde Smoke Alarms Smoke Detectors

380-3215

**\$70<sup>36</sup>**

No hardwiring needed

Kidde smoke alarms offer early detection with flexible, battery-operated installation throughout your home.

### High Press Gas Pump 5.5HP THP-4070

156-8010

**\$1,870<sup>79</sup>**

A high-pressure gas pump delivers strong, consistent water flow when municipal pressure isn't enough.
