MORE THAN HVAC SUPPLY

At Andrew Sheret Limited, we do more than supply equipment and parts. Our HVAC specialists help contractors select products, size systems, access inventory, and keep projects moving from quote to completion.

HVAC DEALER PROGRAM

Bigger Things Are Coming in 2027

We're investing in the future of our HVAC Dealer Program with enhancements designed to help support contractor business growth.

- Exclusive Pricing & Rebates
- Annual Technical Training
- Boost Reach with Co-op Ad Dollars
- Early Access to Promotions
- 5-Star All Inclusive Resort Vacation

More products. Greater value.
Full details launching December 2026.

HVAC EXPERTISE

When You Need It

Our HVAC specialists are available to help with system design support, equipment recommendations, application questions, and product selection to ensure every job is sized and specified correctly.

HEAT LOSS CALCULATION

Need Help Sizing The System?

Give yourself extra confidence before equipment is ordered. Our HVAC team can prepare a professional heat loss calculation package to help confirm the right system size, support accurate product selection, and keep the job moving in the right direction.

HEAT PUMPS

EVOX GEN3 CENTRAL DUCTED HEAT PUMP

The EVOX Gen3 Central Ducted Heat Pump is designed for Canadian climates and retrofit applications, providing an efficient transition from conventional heating systems to inverter-driven heat pump technology.

Key Features

- Up to 19 SEER2 efficiency
- Cold-climate heating performance
- Designed for furnace replacement projects
- Inverter-driven technology
- Compact modular air handler design
- Flexible installation configurations
- Ducted whole-home comfort solution

BROWSE EVOX GEN3

Midea®

SINGLE ZONE SYSTEMS

Single-zone heat pumps provide efficient heating and cooling for individual spaces where independent comfort control is required.

Common Applications

- Additions
- Garages
- Suites

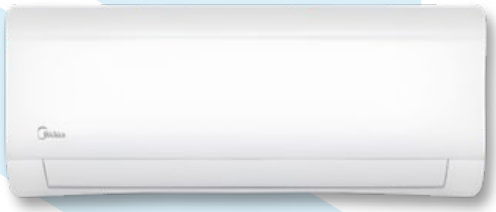

SINGLE-ZONE SYSTEMS

6K WALL HEAD

A compact 6,000 BTU wall-mounted indoor unit designed for multi-zone heat pump applications and smaller conditioned spaces.

Benefits

- Compact wall-mounted design
- Multi-zone compatible
- Ideal for bedrooms, offices, suites, additions, and smaller rooms

PRODUCT DETAILS

MULTI-ZONE SYSTEMS

Multi-zone systems connect multiple indoor units to a single outdoor unit, allowing room-by-room comfort control throughout the home.

Key Features

- Independent room control
- Reduced outdoor equipment footprint
- Ideal for whole-home comfort upgrades
- Flexible installation options

MULTI-ZONE SYSTEMS

Why Contractors Are Choosing Midea

Midea offers a complete portfolio of ducted and ductless heat pump solutions designed to support residential heating and cooling applications across a wide range of installation types.

MIDEA PRODUCT LINE

FLOOR CONSOLES

A low-profile heating and cooling solution suited for areas where wall-mounted installations are impractical.
